Acknowledgements

It has been a great moment to place on record the sense of gratitude and support from bottom of my heart towards my Research Guide Dr. (Mrs.) Vishakha Korad, Zoology Department, Fergusson College, Pune. Her crystal clear guidance, decision making power, enthusiasm and support for any inventive and quality work made this task easy and enjoyable. She didn't leave any stone unturned for this work to be completed. I sincerely thank my research Co-guide, Dr. M. V. Kulkarni, Biochemistry division (Department of Chemistry), University of Pune for his critical suggestions, constant support and motivation.

I am also thankful to Dr. V. S. Rao (Former Director, ARI) and Dr. K. M. Paknikar (Officiating Director, ARI) for permitting me to register and perform the work here with world-class facilities.

I am thankful to Dr. S. M. Ghaskadbi (Head, Zoology Department, ARI) and Dr. Vidya Patwardhan for their support, timely help and guidance. Help from Dr. Anuradha Ratnaparkhi is also duly acknowledged here.

I am thankful to Dr. B. B. Nath (Head, Zoology Department, University of Pune) for his suggestions, support and evaluating my work as an expert of my Ph. D. work assessment committee.

I am also very thankful to Dr. B. C. Behera (ARI, Pune) for his valuable suggestions, untired efforts and standing by me in every task and situation.

This is the right time to pay a gratitude to Late Dr. S. L. Shinde. This work was initiated under his guidance. But because of his untimely demise this thesis couldn't be structured. He will always be remembered more as a father figure and mentor than a guide.

It is an appropriate time to thank all my colleagues and lab mates in ARI, Prasad, Prachi, Dr. Seema, Dr. Kalpana, Dr. Apurva, Dr. Mauli, Dr. Kirti, Bhagyashri, and others who made my stay one of the most memorable and very admirable event in my life. I would like to place on record help and cooperation by scientific staff Mr. V. B. Sindol, Mr. M. B. Daware, late Mr. Gawade, Mrs. Rohini Raut and lab boy Ganeshall of them helped me a lot toward my experiments.
I am very much thankful to my dear friends Dr. Varsha Singh, Wadia College and Dr. K. Lakshmi SurekhaARI for checking my thesis and help during the delicate phase of life and research. Valuable suggestion over thesis and support by them is also acknowledged.

I would like specially thanks to my dear friends Vrushali, Rohini, Vaishali, Meenal, Sanika and our family friend Dr. Ravi and ManishaPatil for their restless efforts to come to a proper end during the work.

It is difficult to imagine writing a thesis without the full support and understanding of the family. I express my heartfelt gratitude to my parents Mr. B.S. Yadav and Mrs. MithileshYadav for their constant support and encouragement.

I express my warmest feelings for the understanding and patience by my husbandPankaj during completion of my thesis without which it would have been a dream only. I am also thankful to my lovely sons Anay and Amaan for their love and affection.

I would also like to acknowledge the financial support and senior research fellowship from Defence research and Developmental Organisation, Delhi. This work has also been supported from grant from Agharkar Research Institute.

Finally, I thank all my teachers, friends and well-wishers, whose names I may not have mentioned here, but whose good wishes and support have enabled me to complete this work.

NutanYadav
