LIST OF TABLES

Table 1  Frequency Distribution of organizational Commitment Scores  160
Table 2  Frequency Distribution of Job Involvement Scores  161
Table 3a  Summary of Analysis of Variance for groups based on Age on organizational Commitment scores  163
Table 3b  t-values showing the difference between means of organizational commitment scores for groups based on Age  163
Table 4a  Summary of Analysis of Variance for groups based on Age on job involvement scores  164
Table 4b  Means of job involvement scores for groups based on Age  164
Table 5a  Summary of Analysis of Variance for groups based on Tenure on organizational commitment scores  165
Table 5b  t-values showing the difference between means of organizational commitment scores for groups based on Tenure  165
Table 6a  Summary of Analysis of Variance for groups based on Tenure on job involvement scores  166
Table 6b  Means of job involvement scores for groups based on Tenure  167
Table 7a  Summary of Analysis of Variance for groups based on Number of Promotions received on organizational commitment scores  167
Table 7b  t-values showing the difference between means of organizational commitment scores for groups having received different Number of Promotions  168
Table 8a  Summary of Analysis of Variance for groups based on Number of Promotions received on job involvement scores  169
Table 8b Means of job involvement scores for groups based on Number of Promotions received

Table 9a Summary of Analysis of Variance for groups based upon Number of Dependents on organizational commitment scores

Table 9b t-values showing the difference between means of organizational commitment scores for groups with different Number of Dependents

Table 10a Summary of Analysis of Variance for groups based upon Number of Dependents on job involvement scores

Table 10b t-values showing the difference between means of job involvement scores for groups based on Number of Dependents

Table 11a Summary of Analysis of Variance for the effect of Marital Status on organizational commitment scores

Table 11b Means of organizational commitment scores for Married and Unmarried respondents

Table 12a Summary of analysis of variance for the effect of Marital Status on job involvement scores

Table 12b Means of job involvement scores for Married and Unmarried respondents

Table 13a Summary of Analysis of Variance for the groups based on the Status of Spouse (Earning/Non-earning) on organizational commitment scores

Table 13b t-values showing the difference between means scores of organizational commitment scores for groups based on the Status of Spouse (Earning/Non-earning)

Table 14a Summary of Analysis of Variance for the groups based upon Status of Spouse (Earning/Non-earning) on job involvement scores

Table 14b Means of job involvement scores for groups based on Status of Spouse (Earning/Non-earning)
Table 15a Summary of Analysis of Variance for groups based on Total Work Experience on organizational commitment scores

Table 15b t-values showing the difference between means of organizational commitment scores for groups based on Total Work Experience

Table 16a Summary of Analysis of Variance for groups based on Total Work Experience on job involvement scores

Table 16b Means of job involvement scores for groups based on Total Work Experience

Table 17a Summary of Analysis of Variance for groups based upon two categories of Background (Rural/Urban) on organizational commitment scores

Table 17b Means of organizational commitment scores for groups based upon Background (Rural/Urban)

Table 18a Summary of Analysis of Variance for groups based upon two categories of Background (Rural/Urban) on job involvement scores

Table 18b Means of job involvement scores for groups based upon Background (Rural/Urban)

Table 19a Summary of Analysis of Variance for groups based on level of Educational Qualifications on organizational commitment scores

Table 19b Means of organizational commitment scores for groups based upon level of Educational Qualifications

Table 20a Summary of Analysis of Variance for groups based on level of Educational Qualifications on job involvement scores

Table 20b Means of job involvement scores for groups based upon level of Educational Qualifications

Table 21a Summary of Analysis of Variance for groups based on Salary on organizational commitment scores
