LIST OF FIGURES

No.  
Fig. - 1.1 : Physical Health Status of Adults, by Depression Status  
Fig. - 1.2 : The Populations With and Without Depression  
Fig. - 1.3 : Mayer and Salovey's (1997) Four-Branch Model of Emotional Intelligence  
Fig. - 1.4 : Social Skills- "S.P.A.C.E." Formula (Kari Albrecht)  
Fig. - 5.1 : Showing Normal Distribution Curve based on scores of 640 respondents on Beck Depression Inventory.  
Fig. - 5.2 : Showing Piegraph based on scores of 640 respondents obtained on Beck Depression Inventory.  
Fig. - 5.3 : Bargraph showing the mean performance of Above Average and Below Average respondents obtained on Beck Depression Inventory categorized on dimension of Patience of Social Intelligence Scale.  
Fig. - 5.4 : Bargraph showing the mean performance of Male and Female respondents obtained on Beck Depression Inventory in relation to dimension of Patience of Social Intelligence Scale.  
Fig. - 5.5 : Bargraph showing the mean performance of Above Average and Below Average respondents obtained on Beck Depression Inventory categorized on Dimension of Co-operativeness dimension of Social Intelligence Scale.  
Fig. - 5.6 : Bargraph showing the mean performance of Male and Female respondents obtained on Beck Depression Inventory in relation to dimension of Co-operativeness of Social Intelligence Scale.  
Fig. - 5.7 : Bargraph showing the mean performance of Above Average and Below Average respondents obtained on Beck Depression Inventory categorized on dimension of Confidence of Social Intelligence Scale.
Fig. - 5.8 : Bargraph showing the mean performance of Male and Female respondents obtained on Beck Depression Inventory in relation to dimension of Confidence of Social Intelligence Scale.

Fig. - 5.9 : Bargraph showing the mean performance of Above Average and Below Average respondents obtained on Beck Depression Inventory categorized on dimension of Sensitivity of Social Intelligence Scale.

Fig. - 5.10 : Bargraph showing the mean performance of Male and Female respondents obtained on Beck Depression Inventory in relation to dimension of Sensitivity of Social Intelligence Scale.

Fig. - 5.11 : Bargraph showing the mean performance of Above Average and Below Average respondents obtained on Beck Depression Inventory categorized on dimension of 'Recognition of Social Environment' of Social Intelligence Scale.

Fig. - 5.12 : Bargraph showing the mean performance of Male and Female respondents obtained on Beck Depression Inventory in relation to dimension of 'Recognition of Social Environment' of Social Intelligence Scale.

Fig. - 5.13 : Bargraph showing the mean performance of Above Average and Below Average respondents obtained on Beck Depression Inventory categorized on dimension of 'Tactfulness' of Social Intelligence Scale.

Fig. - 5.14 : Bargraph showing the mean performance of Male and Female respondents obtained on Beck Depression Inventory in relation to dimension of 'Tactfulness' of Social Intelligence Scale.

Fig. - 5.15 : Bargraph showing the mean performance of Above Average and Below Average respondents obtained on Beck Depression Inventory categorized on dimension of Level of 'Sense of Humour' of Social Intelligence Scale.
Fig. - 5.16 : Bar graph showing the mean performance of Male and Female respondents obtained on Beck Depression Inventory in relation to dimension of ‘Sense of Humour’ of Social Intelligence Scale.

Fig. - 5.17 : Bar graph showing the mean performance of Above Average and Below Average respondents obtained on Beck Depression Inventory categorized on dimension of Memory of Social Intelligence Scale.

Fig. - 5.18 : Bar graph showing the mean performance of Male and Female respondents obtained on Beck Depression Inventory in relation to dimension of Memory of Social Intelligence Scale.

Fig. - 5.19 : Bar graph showing the mean performance of Above Average and Below Average respondents obtained on Beck Depression Inventory categorized on dimension of Intrapersonal Awareness of Mangal Emotional Intelligence Scale.

Fig. - 5.20 : Bar graph showing the mean performance of Male and Female respondents obtained on Beck Depression Inventory in relation to dimension of Intrapersonal Awareness of Mangal Emotional Intelligence Scale.

Fig. - 5.21 : Bar graph showing the mean performance of Above Average and Below Average respondents obtained on Beck Depression Inventory categorized on dimension of Interpersonal Awareness of Mangal Emotional Intelligence Scale.

Fig. - 5.22 : Bar graph showing the mean performance of Male and Female respondents obtained on Beck Depression Inventory in relation to dimension of Interpersonal Awareness of Mangal Emotional Intelligence Scale.

Fig. - 5.23 : Bar graph showing the mean performance of Above Average and Below Average respondents obtained on Beck Depression Inventory categorized on dimension of Intrapersonal Management of Mangal Emotional Intelligence Scale.
Fig. - 5.24 : Bargraph showing the mean performance of Male and Female respondents obtained on Beck Depression Inventory in relation to dimension of Intrapersonal Management of Mangal Emotional Intelligence Scale.

Fig. - 5.25 : Bargraph showing the mean performance of Above Average and Below Average respondents obtained on Beck Depression Inventory categorized on dimension of Interpersonal Management of Mangal Emotional Intelligence Scale.

Fig. - 5.26 : Bargraph showing the mean performance of Male and Female respondents obtained on Beck Depression Inventory in relation to dimension of Interpersonal Management of Mangal Emotional Intelligence Scale.

Fig. - 5.27 : Bargraph showing the mean performance of Above Average and Below Average respondents obtained on Beck Depression Inventory categorized on the basis of total score obtained on Mangal Emotional Intelligence Scale.

Fig. - 5.28 : Bargraph showing the mean performance of Male and Female respondents obtained on Beck Depression Inventory in relation to total score of Mangal Emotional Intelligence Scale.
