CHAPTER 1: INTRODUCTION 1-58

1.1 CANCER 3-11
1.1.1 Characteristics of cancer
1.1.2 Symptoms of cancer
1.1.3 Risk factors for cancer
1.1.4 Causes of cancer

1.2 STATUS OF CANCER 11-51
1.2.1 In World
1.2.1.1 Lung cancer
1.2.1.2 Prostate cancer
1.2.1.3 Breast cancer
1.2.1.4 Colorectal cancer
1.2.1.5 Stomach cancer
1.2.1.6 Cervical cancer
1.2.1.7 Liver cancer
1.2.1.8 Oesophageal cancer
1.2.1.9 Bladder cancer
1.2.2 In India
   1.2.2.1 Cancer control programme in India
   1.2.2.2 New initiatives
   1.2.2.3 Other facilities
   1.2.2.4 Cancer registry in India

1.2.3 In Punjab
   1.2.3.1 Cancer control programme in Punjab

1.3 SOCIO-CULURAL DIMENSIONS AND HEALTHCARE OF CANCER PATIENTS

1.4 THE PRESENT STUDY

CHAPTER 2: CANCER IN TIME AND SPACE

2.1 NEED FOR STUDYING PALAEOPATHOLOGY
   2.1.1 Diagnostic techniques used to examine ancient specimens
   2.1.1.1 Macroscopic inspection
   2.1.1.2 Radiographic examination
   2.1.1.3 Histological examination
   2.1.1.4 Molecular techniques

2.2 PALAEOPATHOLOGICAL EVIDENCES FROM SKELETAL REMAINS

2.3 PALAEOPATHOLOGICAL EVIDENCES FROM MUMMIFIED REMAINS

2.4 CANCER IN ANCIENT TEXTS
   2.4.1 Indian texts
   2.4.1.1 Characteristics of cancer (arbuda)
   2.4.1.2 Cancer at specific sites
   2.4.1.3 Treatment of cancer
   2.4.2 Greek and Roman texts
2.4.2.1 Hippocrates (460-370 BC)
2.4.2.2 Treatment in post-Hippocratic period (1-3rd century AD)
2.4.2.3 Galen of Pergamon (129-201 AD)
2.4.2.4 Treatment of late antiquity: Oreibasios of Pergamon (320-400 AD)
2.4.2.5 Treatment in late antiquity and the transition to the middle ages

2.4.3 Unani texts
2.4.4 Egyptian texts
2.4.5 Other texts

CHAPTER 3: REVIEW OF LITERATURE
3.1 COPING
  3.1.1 Cancer and coping
    3.1.1.1 Cancer coping among elderly
    3.1.1.2 Coping among parents of children with cancer

3.2 SOCIAL SUPPORT
  3.2.1 Social support and health
    3.2.1.1 Cancer and social support
  3.2.2 Social support and coping

3.3 RELIGIOSITY
  3.3.1 Religiosity and health
    3.3.1.1 Cancer and religiosity
    3.3.2 Religiosity and coping

3.4 SOCIAL STIGMA
  3.4.1 Cancer and social stigma

3.5 QUALITY OF LIFE
  3.5.1 Cancer and quality of life
  3.5.2 Social support and quality of life
3.5.3 Religiosity and quality of life
3.6 CANCER AND DEATH FEAR 133-134
3.7 CANCER ANXIETY AND DEPRESSION 134-135
3.8 CANCER AND GENDER 135-140
3.9 CANCER AND AWARENESS 140
3.10 CANCER AND BODY IMAGE CONCERNS 140-143

CHAPTER 4: CONCEPTUAL AND THEORETICAL FRAMEWORK 147-222
4.1 HEALTH 147-171
  4.1.1 The different views/concepts of health
    4.1.1.1 Etymological views of health
    4.1.1.2 Biomedical views of health
    4.1.1.3 Ecological views of health
    4.1.1.4 World Health Organisation’s concept of health
    4.1.1.5 Critical medical anthropology’s concept of health
    4.1.1.6 Public health’s concept of health
    4.1.1.7 Cultural and organisational concepts of health
    4.1.1.8 Cultural systems concept of health
    4.1.1.9 Ayurvedic concept of health
    4.1.1.10 Holistic concept of health
  4.1.2 Definitions of health
    4.1.2.1 Selective definitions of health
    4.1.2.2 Universal definitions of health
4.2 HEALTH CARE 171-172
4.3 CANCER 172-173
  4.3.1 Key cancer concepts
4.4 COPING 173-176
  4.4.1 Coping strategies
  4.4.2 Coping styles

4.13.1.1 The health belief model
4.13.1.2 The health care utilisation model
4.13.1.3 Kroeger’s model
4.13.1.4 The “four As”
4.13.1.5 Pathway model

4.13.2 Theoretical framework for post-diagnosis stage

4.13.2.1 Biopsychosocial-spiritual model for the patients at the end-of-life
4.13.2.2 Coping resources used by cancer patients
4.13.2.3 Role of religion in cancer coping and quality of life

CHAPTER 5: RESEARCH METHODOLOGY

5.1 RESEARCH DESIGN AND METHODOLOGY 224-225
5.2 FORMULATION OF THE RESEARCH PROBLEM 226
5.3 AIMS AND OBJECTIVES 226-227
5.4 UNIVERSE AND UNIT OF STUDY 227-229
  5.4.1 Sampling and sample size
    5.4.1.1 Inclusion criteria
    5.4.1.2 Exclusion criteria
5.5 PILOT STUDY AND PRETESTS 229-230
5.6 RAPPORT ESTABLISHMENT 230-231
5.7 TECHNIQUES OF DATA COLLECTION 232-236
  5.7.1 Collection of primary data
    5.7.1.1 In-depth interviewing
    5.7.1.2 Observation
    5.7.1.3 Case study
    5.7.1.4 Narratives
    5.7.1.5 Conversations
5.7.2 Collection of secondary data
5.8 DATA ANALYSIS 236-237
5.9 THE ETHICAL ISSUES 237-239
5.10 DIFFICULTIES ENCOUNTERED 239-240
5.11 LIMITATIONS OF THE STUDY 240

CHAPTER 6: PUNJAB: AREA, PEOPLE AND ITS ECOLOGY 241-266

6.1 PUNJAB 241-243
  6.1.1 Bathinda
  6.1.2 Faridkot
  6.1.3 Sri Muktsar Sahib

6.2 ECOLOGICAL HISTORY OF PRE-GREEN REVOLUTION PUNJAB 244-256
  6.2.1 The Mughal landscape and the rise of cultivation as commerce (1526-1707)
  6.2.2 Ecology under Sikh rule: The Maharaja, the tiller and the land
  6.2.3 Nature and empire: Colonial encounters

6.3 GREEN REVOLUTION IN PUNJAB 256-263
  6.3.1 Excessive use of pesticides and its impact on health in Punjab
  6.3.2 Excessive use of fertilisers and its impact on health in Punjab

6.4 OTHER FACTORS CONTRIBUTING TO HEALTH RISKS 263-266
  6.4.1 Uranium contamination of underground water
  6.4.2 Arsenic and bromine contamination

CHAPTER 7: ANALYSIS 267-486

7.1 SOCIO-DEMOGRAPHIC CHARACTERISTICS OF THE RESPONDENTS 267-278
  7.1.1 Gender-wise distribution of respondents
7.1.1.1 Association of gender with type of treatment
7.1.1.2 Association of gender with type of cancer
7.1.2 Age-wise distribution of respondents
  7.1.2.1 Association of age with gender
  7.1.2.2 Association of age with type of treatment
  7.1.2.3 Association of age with type of cancer
7.1.3 Caste-wise distribution of respondents
  7.1.3.1 Association of caste with gender
7.1.4 Marital status of respondents
  7.1.4.1 Association of marital status with gender
7.1.5 Educational status of respondents
  7.1.5.1 Association of educational status with gender
7.1.6 Occupational status of respondents
  7.1.6.1 Association of occupational status with gender
7.2 BELIEFS AND PERCEPTIONS RELATED TO CANCER 278-317
  7.2.1 Description and the terminology used for cancer
  7.2.2 Symptoms of cancer
  7.2.3 Diagnosis of cancer
    7.2.3.1 Reasons for downplaying symptoms and late diagnosis
    7.2.3.2 Information-seeking after the diagnosis with cancer
  7.2.4 Attribution of causes to the cancer and search for meanings
    7.2.4.1 Karmā
    7.2.4.2 Kismat
    7.2.4.3 Contamination of underground water
    7.2.4.4 Contagion
    7.2.4.5 Hereditary
7.2.4.6 Stress

7.2.5 Misconceptions regarding causes of cancer

7.3 HEALTH-SEEKING BEHAVIOUR OF THE RESPONDENTS

7.3.1 Factors affecting health-seeking behaviour of the respondents
   7.3.1.1 Accessibility and affordability of health care services
   7.3.1.2 Religion
   7.3.1.3 Social support and role of 'significant others'
   7.3.1.4 Beliefs related to cancer

7.3.2 Role of NGOs

7.4 CONCERNS OF CANCER PATIENTS UNDERGOING TREATMENT

7.4.1 Body image concerns among cancer patients
   7.4.1.1 Hair loss (alopecia) as a result of chemotherapy
   7.4.1.2 Body image concerns among breast cancer patients
   7.4.1.3 Body image concerns among cancer patients with gynaecological cancers
   7.4.1.4 Body image concerns among oral cancer patients

7.4.2 Stigma and non-disclosure of cancer

7.4.3 Concerns about other family members

7.5 CONCERNS AT END-OF-LIFE: PATIENT’S, CAREGIVER’S AND HEALTH CARE PROVIDER’S PERSPECTIVES

7.5.1 Palliative care
   7.5.1.1 Hospice
   7.5.1.2 Palliative care in India
7.5.1.3 Palliative care at PGIMER, Chandigarh

7.5.2 Patient’s concerns
7.5.2.1 Talking about death as a taboo
7.5.2.2 Gender roles and financial concerns
7.5.2.3 Contrary body image concerns
7.5.2.4 Coping strategies used by the patients

7.5.3 Caregiver’s concerns
7.5.3.1 Importance of time
7.5.3.2 Concerns about suffering of the patient

7.5.4 Health care provider’s concerns

7.6 CHARACTERISTICS OF ‘GOOD DEATH’, ‘BAD DEATH’ AND ‘DIGNIFIED DEATH’: PATIENT’S, CAREGIVER’S AND HEALTH CARE PROVIDER’S PERSPECTIVES

7.6.1 Characteristics of ‘good death’: Patient’s perspective
7.6.1.1 Death at home/native place and community participation in death rites
7.6.1.2 Awareness of prognosis and nearing death
7.6.1.3 Less symptom burden and suffering
7.6.1.4 Less financial burden on family at the end-of-life
7.6.1.5 Less emotional burden on family

7.6.2 Characteristics of ‘good death’ and ‘bad death’: Caregiver’s perspectives
7.6.2.1 Characteristics of ‘good death’
7.6.2.2 Characteristics of ‘bad death’

7.6.3 Characteristics of ‘dignified death’: Healthcare provider’s perspectives

x
# 7.7 ROLE OF MASS MEDIA 457-484

7.7.1 Content analysis of cancer related news

7.7.1.1 Manifest findings

7.7.1.2 Latent findings

7.7.1.3 Cancer at specific sites

7.7.1.4 ‘Cancer train’: Portrayal in media and personal experiences of patients

# 7.8 OBSERVATIONS FROM THE FIELD 484-485

# 7.9 IMPORTANT TERMS USED 485-486

7.9.1 Active treatment

7.9.2 Symptomatic treatment

7.9.3 Health care providers

7.9.4 Caregivers
