ACKNOWLEDGEMENTS

I can hardly express my deep sense of gratitude to my esteemed teacher, Professor R.C. Chandna, Department of Geography, Panjab University, Chandigarh for his valuable guidance and inspiration I have received during the course of the present study. Throughout this laborious work he was a perpetual source of inspiration that emanated from his deep insight of the subject. His geniality and alacrity proved great assets to me. His constant encouragement always gave fresh fillip to my research work.

To the Chairperson of the Department, Professor Mrs. S. Mehta and my colleagues in the Department I express my heartfelt thanks for the support and co-operation provided to me, most gladly and readily, which emboldened me to carry on my research work.

I thank once again my kind Guide and Supervisor, Professor R.C. Chandna without whose help the present work could never have been concluded.
