CONTENTS

INTRODUCTION 1-6

REVIEW OF LITERATURE 7-36
Chronic stress, its causes and types
Epidemiology of chronic stress
Pathology associated with chronic stress
Animal models of chronic stress
Chronic stress and related disorders
Management of chronic stress
Therapeutic interventions employed in study

AIM AND PLAN OF WORK 37-38

CHAPTER 1: NEUROPROTECTIVE EFFECTS OF CURCUMIN AND GINSENG AGAINST EXPERIMENTAL MODEL OF CHRONIC UNPREDICTABLE STRESS INDUCED COGNITIVE DEFICITS 39-64

CHAPTER 1.1: Neuroprotective role of curcumin and its interaction with piperine against chronic unpredictable stress induced cognitive loss
1.1.1. Introduction
1.1.2. Materials and Methods
1.1.3. Results
1.1.4. Discussion

CHAPTER 1.2: Modulation of nitric oxide pathway by American ginseng against chronic unpredictable stress induced cognitive deficits
1.2.1. Introduction
1.2.2. Materials and Methods
1.2.3. Results
1.2.4. Discussion

CHAPTER 2: NEUROPROTECTIVE FUNCTIONS OF CURCUMIN AND QUERCETIN AGAINST EXPERIMENTAL MODEL OF OLFACTORY BULBECTOMY INDUCED DEPRESSION 65-84
