ACKNOWLEDGEMENTS

Research is like an endless ocean and one needs to be guided and supported by several individuals in order to bring a handful of pearls from its depth. I take this opportunity to express my deep sense of gratitude to all those, who made this research possible for me.

I gratefully acknowledge the support and favour extended to me by my respected supervisor, Professor Meenakshi Malhotra, VBS, chairman Panjab University, Chandigarh, under whose able and kind guidance this study has been completed. Her uninterrupted supervision, precious guidance, ceaseless motivation and unfailing courtesy stood by me in executing this arduous task from its conception to completion.

I am very thankful to Dr. Dinesh Gupta, Dr. A. Vashist, Dr Sanjay Kaushik, Dr. B.B. Goyal, Dr. Karamjeet Singh of VBS Punjab University, Chandigarh, for creating congenial environment for research. I am grateful to all the members of the esteemed faculty of VBS Punjab University, Chandigarh for guiding me at all stages during all these years.

I acknowledge with thanks for library support provided to me by Mr. S.S. Bedi, Librarian, VBS Panjab University, and Chandigarh. My heartiest thanks are also due to administrative staff of University Business School (Urs) PU, Chandigarh for their kind co-operation.

I extend my deep appreciation to the staff of the All India radio and FM media organisations for their help in providing useful data to me for this study.

I am deeply indebted to Sri. V.P.S. Rao for his invaluable suggestion from time to time as and when I approached him.
This thesis, my dream, is inspired by the support and motivation of my father, Dr. Vinod Sharma ‘Pankaj’ who helped me to crystallize my ideas into this empirical work. He always applauded my efforts, channelized my skills, and taught me how to turn failures in my success. I thank him for being by my side during all highs and lows of my work and for making me what I am today. I am very thankful to my mother Dr. Kapila Sharma, who helped me a lot in data collection and data tabulation. Without the support and encouragement from my parents, this work would not have been possible at all. I owe this thesis to them.

I would also like to thank my sister, Miss Neha Sharma and brother Mr. Varun Vashist for their silent support during my learning journey in this period.

Finally deepest debt is due to my lifelong companion/ husband whose constant inspiration, encouragement and help provided me with the strength without which I would not have been able to accomplish this work.

I have hardly any words to express my gratitude to my little son Ayushmaan from whom I poached on the time which was exclusively his.

I would like to thank Er. Sarvdanand Arya for helping me for typing my thesis.

And above all, this study is a result of God’s eternal grace and blessings.

My foremost thanks to the Great Almighty for bestowing me with the opportunity to undertake and complete the research project.
