Acknowledgements

I consider it a privilege to express my thanks and deep sense of gratitude to my esteemed supervisors Dr. N. R. Kalla, Professor of Biophysics, Panjab University, Chandigarh and Dr. Mohini Sood, Professor of Anatomy, Christian Medical College & Hospital, Ludhiana for their valuable guidance and constant encouragement in accomplishing this assignment. I gratefully acknowledge their deep interest, healthy criticism, unforgettable help in dealing with problems and hurdles and providing me with practical solutions at the time of tough situations.

I express my deep regards and thanks to Dr. S. N. Sanyal, Chairman, Dr. (Mrs.) Bimla Nehru and Dr. F. S. Nandel, (Ex. Chairpersons), Department of Biophysics, Panjab University, Chandigarh for their help and assistance in smooth conduct of this project.

My sincere and heart felt thanks are due to Dr. John Pramod, Professor and Head, Department of Physiology, Christian Medical College & Hospital, Ludhiana for his valuable suggestions in improving the quality of the present research work. His great moral support, making available all the departmental facilities and providing a conducive environment for carrying out this study can never be forgotten.

It is my utmost duty to extend my thanks to Dr. Abraham. G. Thomas, then Professor and Head, Department of Micro-vascular Surgery and Principal, Christian Medical College, Ludhiana for his valuable contribution in making this study a success.

A word of appreciation is due to Dr. Kim J. Mammen, Professor and Head and Dr. Tara Chand, then Reader, Department of Urology, Christian Medical College, Ludhiana for referring patients required for the study and conducting testicular biopsies.

I will fail in my duty if I do not recognize Dr. Vineet Kaur, Reader, Department of Obstetrics and Gynecology and Dr. R. S. Deswal, Head, Department of Psychiatry, Christian Medical College, Ludhiana for referring patients required for the study and conducting testicular biopsies.

I am indeed grateful to Dr. Uma Arora, Professor and Head, Professor Rebecca Abraham and Professor Rajinder Chawla, Department of Biochemistry, Christian Medical College, Ludhiana for providing facilities for biochemical analysis and help in statistical analysis of the data.

My thanks are also due to Dr. Nalini Calton, Professor and Head and Dr. Roma Isaac, Reader, Department of Pathology, Christian Medical College, Ludhiana for their assistance in carrying out histopathology studies and Professor C.L Arora, Department of Soils, Panjab Agriculture University, Ludhiana for providing valuable help in trace element analysis.

I am also very thankful to Mr. Shammi Jain, Director and Mr. Anil Garg, Vice President, Vallabh Steels Ltd., Ludhiana for sparing their workers for inclusion in this project.

I am indebted to Dr. Uma Arora, Professor and Head, Professor Rebecca Abraham and Professor Rajinder Chawla, Department of Biochemistry, Christian Medical College, Ludhiana for providing facilities for biochemical analysis and help in statistical analysis of the data.

My thanks are also due to Dr. Nalini Calton, Professor and Head and Dr. Roma Isaac, Reader, Department of Pathology, Christian Medical College, Ludhiana for their assistance in carrying out histopathology studies and Professor C.L Arora, Department of Soils, Panjab Agriculture University, Ludhiana for providing valuable help in trace element analysis.
I owe special thanks to Dr. M. M. Misro and Dr. T. G. Srivastav, Readers and their teams, Department of Reproductive Biomedicine, National Institute of Health and Family Welfare, New Delhi for allowing me to participate in “Training Course on Application of Research Techniques in Reproductive Biomedicine” and to undertake a part of the research work necessary to complete the study.

I would like to appreciate my friends and colleagues Dr. Sheena Singh, Dr. Joydeep Singh and Dr. Rajiv Arora in the Department of Physiology, Christian Medical College, Ludhiana for their constant encouragement and invaluable help in completion and compilation of this work along with making my stay in the department a memorable one.

My thanks are also due to the non-teaching and technical staff of the Department of Physiology and Biochemistry, Christian Medical College, Ludhiana who helped me throughout the duration of this venture.

I admire my husband, Mr. Surinder Kumar Soni for his patience and cooperation without which this work would not have been possible at all. My heart also goes to my children Tarun and Alisha who had to suffer a great deal of neglect during the course of this work. I have no words to express the contribution of my parents to complete this task, without which I could never stand on this platform.

I owe a word of thanks and appreciation to Dr. R.P.S. Kang, National Clinic, Shahpur Road, Ludhiana and my brother-in law Mr. Rakesh Soni who spared their valuable time to help me in reading the manuscript and compilation of this work.

Words can not express my heartfelt gratitude and regards to my great teacher Professor Sujoy Kumar Guha, Centre for Biomedical Engineering, IIT and AIIMS, New Delhi for motivating me through constant encouragement and inspiration to develop a continuous aspiration for professional betterment and academic advancement. I dedicate this work to him.

I owe a great deal to all those men who made this project a reality with their volunteer participation as subjects.

Finally I thank Him, for things happen only if He desires.

Kusum Soni
