ACKNOWLEDGEMENT

The author expresses his deep sense of gratitude to his revered research supervisor Dr. G.S. Gill, Reader at Centre of Advanced Study in Geology, Panjab University, Chandigarh, for his able guidance, valuable suggestions, constructive criticism and thought provoking discussions. His enduring patience at crucial moments made the author more confidants about his abilities. Words are not enough to gratitude his generosity to help a foreign student. But for his encouragement, inspiration and unfailing help, it would have been difficult to bring out the thesis in present form.

He is grateful to Professor R.K. Kakar, Chairman and Director, Centre of Advanced Study in Geology, Panjab University, Chandigarh for providing working facilities in the department.

His special thanks and due to professor R.S. Chandhri, Professor Naresh Kochhar and Dr. Naveen Chaudhri for providing necessary help and co-operation during the course of research work. Help received from Dr. Agarwal, Head, Central of Soil and Water Conservation, Chandigarh is thankfully acknowledged.

The author is indebted to Dr. Ebrahim Hajizadeh, First Secretary & Head, Embassy of I .R. of Iran, New Delhi for Extending total co-operation. Thanks are due to Dr. H. Dahmardeh, Chancellor, Zabol University, Iran and Ministry of Science, Research and Technology, Iran for granting permission to carry out research in India.

Last but not least, the author duly acknowledges the constant support from his parents, especially his mother whom he lost during this study, his wife and kids who accompanied him during the long stints away from home.

Dated 26-11-2001
