I take this opportunity to aver with deep conviction that execution of this exercise would have never attained fruition without an unflinching magnanimity, kind inspiring guidance, invaluable supervision and constant motivation emanating from my worthy Supervisor S. Gurbakhash Singh Sandhu, Reader Department of Physical Education, Panjab University Chandigarh and words fail me in expressing my deep gratitude and regard for him.

I am grateful to Dr. N.S. Mann, Lecturer, Department of Physical Education, Panjab University, Chandigarh for rendering me from time to time, his precious, constructive and appropriate advice from his rich experiences for the completion of this project. I feel deeply obliged to him.

I must also express my deep gratitude to the Sport Directorates of Panjab University, H.A.U, Hissar and M.D. University, Rohtak, Directors of Physical Education of the concerned colleges and the Manager S.A.I. Sports Hostel, Chandigarh, for their kind permission for conducting this experiment and their invaluable assistance in collection of data.

My Bhabi Jee, Mrs. Bhupinder Kaur Sandhu, had been most caring, affectionate, cooperative, considerate and
inspiring. My hats off to her.

A special thanks is due to Mr. Safri Lal for rendering me his valuable help which has been found useful in the fulfillment of this task.

I feel great pleasure in expressing my warm thanks to my close friend Miss Sukhpal Dhillon for her unreserved cooperation and sincere help that was readily available at all the time. She really did a lot.

I acknowledge with thanks a great job done by Mr. Puneet Duggal who managed to take out time always and helped me in computing and analysing the data and associated tasks.

I owe a bundle of thanks to Lt. Col. D.V.S. Rathee, who extended his full cooperation in carrying out this experiment.

Mr. and Mrs. Sunil Dutt Sinha played a special role by offering hospitality with affection and care. They extended their full cooperation in carrying out this research project. Sanjay and Namrata also contributed a lot. I feel indebted to them for their concern and consideration. From heart of hearts, I am thankful to them all, especially Mrs. Nargis Sinha. Also a big thanks to Mr. Ashutosh Srivastava for his kind cooperation.

I appreciate the sincere and hard work of Mrs. Darshan Kaur and her family members, for rendering me
invaluable assistance in finalisation, computerization and typing of this project.

My in-laws, sisters (especially Mrs. Annie Sood) and their family members played a great role in the fulfillment of this piece of work. I thank them all.

Words elude me in expressing my feelings and regard to a friend for ever (my husband) Mr. S.V. Rathee who has always been a source of strength and inspiration always, in completion of this project. He and my son Vikram Jit played a 'key' role in achieving my target, they endured with me the hardships and it would have been impossible to complete this work without their sacrifice and cooperation. They deserve warm and greater thanks indeed.
