LIST OF TABLES

Table 2.1 Number of Girls and Boys in Various Grades Included in the Sub-sample for the Item analysis of the Preliminary draft of the A.C. Test.

Table 2.2 Number of Girls and Boys in the three Grades Forming the Sub-sample for Conducting Reliability and Validity Studies.

Table 2.3 Number of Girls and Boys in the Three Grades Forming the Sub-Sample for Tracing the Development of Algebraic Concepts.

Table 3.1 Proportion of Correct Responses on Preliminary Draft of A.C. Test for Each Grade (VI to VIII) Indicating Knowledge of Items with Four or Two Alternatives for Sig. at .01 and .05 Levels.

Table 3.2 Item Difficulty in Preliminary Draft of the A.C. Test.

Table 3.3 Serial Number of Items Understood Beyond Chance at .05 Level by the Three Grade Pupils in Each Concept.

Table 3.4 Item Discrimination at the Sixth Grade Level.

Table 3.5 Item Discrimination at the Seventh Grade Level.

Table 3.6 Item Discrimination at the Eighth Grade Level.

Table 3.7 Serial Number of Items Under Various Sub-Tests (Concepts) Discriminating Between High & Low 27 Percent Cases in Grades Six, Seven and Eight at .05 Level of Significance.
