</table>
Table 5.13 Summary of one-way ANOVA for students, teachers and employers of Government Polytechnic for women, Ambala.

Table 5.14 Mean scores of students, teachers and employers of Government Polytechnic for women, Ambala and t-values for those key factors for which F-values were found significant.

Table 5.15 Summary of one-way ANOVA for students, teachers and employers of Government Institute of Engineering and Technology, Hisar.

Table 5.16 Mean scores of students, teachers and employers of Government Institute of Engineering and Technology, Hisar and t-values for those key factors for which F-values were found significant.

Table 5.17 Summary of one-way ANOVA for students, teachers and employers of Vaish Technical Institute, Rohtak.

Table 5.18 Mean scores of students, teachers and employers of Vaish Technical Institute, Rohtak and t-values for those key factors for which F-values were found significant.

Table 5.19 Summary of one-way ANOVA for students, teachers and employers of Government Polytechnic, Sundernagar.

Table 5.20 Mean scores of students, teachers and employers of Government Polytechnic, Sundernagar and t-values for those key factors for which F-values were found significant.

Table 5.21 Summary of one-way ANOVA for students, teachers and employers of Government Polytechnic for women, Kandaghat.

Table 5.22 Mean scores of students, teachers and employers of Government Polytechnic for women, Kandaghat and t-values for those key factors for which F-values were found significant.

Table 5.23 Summary of one-way ANOVA for students, teachers and employers of Central Polytechnic, Chandigarh.

Table 5.24 Mean scores of students, teachers and employers of Central Polytechnic, Chandigarh and t-values for those key factors for which F-values were found significant.

Table 5.25 Summary of one-way ANOVA for students, teachers and employers of Government Polytechnic for women, Chandigarh.
Table 5.26  Mean scores of students, teachers and employers of Government Polytechnic for women, Chandigarh and t-values for those key factors for which F-values were found significant.

Table 5.27  Summary of one-way ANOVA for the total stakeholders of selected polytechnics in the state of Punjab.

Table 5.28  Mean score of polytechnics of Punjab and t-values for those key factors of organizational effectiveness for which F-values were not found significant.

Table 5.29  Summary of one-way ANOVA for the total stakeholders of selected polytechnics in the state of Haryana.

Table 5.30  Mean score of polytechnics of Haryana and t-values for those key factors of organizational effectiveness for which F-values were found significant.

Table 5.31  Summary of one-way ANOVA for the total stakeholders of selected polytechnics in the state of Himachal Pradesh.

Table 5.32  Mean score of polytechnics of Himachal Pradesh and t-values for those key factors of organizational effectiveness for which F-values were found significant.

Table 5.33  Summary of one-way ANOVA for the total stakeholders of selected polytechnics in the UT of Chandigarh.

Table 5.34  Mean score of polytechnics of Chandigarh and t-values for those key factors of organizational effectiveness for which F-values were found significant.

Table 5.35  Summary of one-way ANOVA for the three stakeholders in the state of Punjab.

Table 5.36  Mean scores of teachers, students and employer's perception and t-values for those key factors for which F-values were found significant for the state of Punjab.

Table 5.37  Summary of one-way ANOVA for the three stakeholders in the state of Haryana.

Table 5.38  Mean scores of teachers, students and employer's perception and t-values for those key factors for which F-values were found significant for the state of Haryana.

Table 5.39  Summary of one-way ANOVA for the three stakeholders in the state of Himachal Pradesh.
Table 5.40  Mean scores of teachers, students and employer's perception and t-values for those key factors for which F-values were found significant for the state of Himachal Pradesh.

Table 5.41  Summary of one-way ANOVA for the three stakeholders in the UT of Chandigarh.

Table 5.42  Mean scores of teachers, students and employer's perception and t-values for those key factors for which F-values were found significant for the UT of Chandigarh.

Table 5.43  Summary of one-way ANOVA for the stakeholders of selected polytechnics of the states of Punjab, Haryana, Himachal Pradesh and UT of Chandigarh.

Table 5.44  Mean scores of polytechnics of Punjab, Haryana, Himachal Pradesh and Chandigarh and t-values for those key factors of organizational effectiveness for which F-values were found significant.

Table 5.45  Summary of one-way ANOVA for the three stakeholders of all the four states put together.

Table 5.46  Mean scores of teachers, students and employers under those key factors of organizational effectiveness for which F-values were found significant.

Table 5.47  Summary of one-way ANOVA for the three stakeholders of Government and aided polytechnics in the selected states of northern India.

Table 5.48  Mean score of stakeholders of Government and aided polytechnics of 4 selected states of northern region and t-values for those key factors for which F-values were found significant.

Table 5.49  Summary of one-way ANOVA for the three stakeholders of Co-ed and women polytechnics in the selected states of northern region.

Table 5.50  Mean score of stakeholders of Co-ed and women polytechnics of 4 selected states of northern region and t-values for those key factors for which F-values were found significant.
