CONTENTS

Chapter-1: Introduction 1
Chapter-2: Survey of Literature of selected drugs 14
Chapter-3: Section (i) Objectives of present investigation 48
Section (ii) Preparation of Reagents and solution 50
Section (iii) Brief description of instruments employed 56
Section (iv) Brief profile of selected drugs 59
Chapter-4: Difference spectrometry method for the estimation of 69
selected drugs
1. Stilboestrol
2. Rebaprazole
3. Desloratadine
4. Domapridone
Chapter-5: Amino group and phenolic group containing drugs 98
estimated by DDQ method.
1. Gatifloxacin
2. Tizanidine
3. Cefadroxil
Chapter-6: Cerimetric method for the estimation of 118
selected drugs
1. Chloropromazine
2. Promethazine
Chapter-7: UV-Visible spectrophotometric estimation of some drugs by bromination method
1. Methyldopa
2. Stilboestrol
3. Cedroxil
4. Desloratadine

Chapter-8: Summary

Bibliography
