Acknowledgements

I take this opportunity to acknowledge Lord SriShila Mallikarjuna who showered on me his treasure of blessings. Without which I feel this work would not have been completed.

On the eve of presenting this thesis with all humility and reverence, I sincerely express my whole hearted thanks and gratitude to my esteemed teacher and guide, respected Dr. R. H. Udupi, Professor and Head, Dept. of Pharmaceutical Chemistry, N.E.T. Pharmacy College. I am greatly indebted to him for his keen interest, valuable guidance, suggestions, encouragement and stimulating criticism throughout the course of this research work.

I also take this opportunity to express my sincere thanks to respected Dr. V. Hima Bindu, my Co-Guide, Associate Professor, HOD, Center for environment, Institution of science and technology, Jawaharlal Nehru Technological University, Hyderabad.

With pride and pleasure, I wish to express my sincer thanks to Dr.N. Sreenivasalu Professor, V.L. College of Pharmacy, Raichur, for his valuable advice and constant encouragement during this research work with great ease and precision.

I am deeply grateful to and Mr. Pradeep Kumar Reddy Chairman and Mr. Balaraju Principal, Jagruthi Jr. College wanaparthy, and Dr. Ramamohan Guptha Ex-Principal N.E.T. Pharmacy College, Raichur, for their help during this thesis work.

I am indeed grateful to Dr. Sunil kumar, Asst.Professor Dept. of Pharmaceutical Chemistry, N.E.T. Pharmacy College Raichur, Mr. A.M. Sreedhara, Dr. Sreenivas A. Kandadai. Mr. A. Paniraj Rao and Mr. Prasanna Bhat Scientist, Advinus Ltd, Bangalore, for their all sorts of support and encouragement during my course of research.

I also express my sincere and whole hearted thanks to Mr. Ch. Krishnam Raju, Scientist Matrix laboratory Hyderabad, Dr. Somashekar B.C, Scientist, Advinus Ltd,
Bangalore, Ms. Sarah Charlotte Crotty Warwick university UK(France), for their kind help during my work.

I express my gratitude to Dr. Y. Anand Kumar, Dr. Pramod Kumar Professors and Dr. Rajeeva. B Associate Professor V.L. College of Pharmacy, Raichur, for their kind help during the course of my study.

I feel insolvency of words to express my profound sense of gratitude to my beloved parents, Mr. P. Raman Goud and Late Mrs. P. Neeraja, who are the backbone instrumental for my existence and progress. Similarly I am indebted to my Younger Brother and Sister, the real source of inspiration for building up my carrier.

I honestly thank to my younger sister, Mrs. Tejaswini M. her love, affection, constant encouragement, criticism, help and care throughout research work. I am deeply grateful to my younger brother Late Mr. P.Sujeeth Kumar Goud who sacrificed his education for me and for his constant encouragement, guidance and suggestions during the course of my studies.

It gives me a great pleasure to record my sincere thanks to my friends Dr. Mohan babu. M, Mr. Ramesh. B, Mr. Satheesh. J for their direct and indirect help in completing the research work.

I also thank Dr. V.G.M. Naidu, IICT and Startech labs, Hyderabad for their help in taking the NMR, MASS, I.R. Spectra and Dr Chandrashekar, HSK college of pharmacy, Bagalkote for his help in evaluation of Anti cancer activity.

Last but not the least, I express my gratitude to all those who, in large measure have contributed to their maximum capacities directly or indirectly in completing this thesis work successfully.

SANATH KUMAR GOUD PALUSA
