EFFECT OF STRESS, LOCALITY AND GENDER ON SELECTED COGNITIVE AND NON-COGNITIVE VARIABLES

A THESIS

SUBMITTED TO THE PANJAB UNIVERSITY, CHANDIGARH
FOR THE DEGREE OF
DOCTOR OF PHILOSOPHY
IN THE FACULTY OF EDUCATION
2003

ASEEMA MRIGNAINY DESWAN
"The process of living is the process of reacting to stress."

Stanley Sarnoff

Like cockroaches and flu germs, stress is infinitely adaptable. It relishes new situations and thrives on new technology.

Anything new presents a golden opportunity for stress to assert itself, which is why new strains are being developed everyday.

Marcel Feigel & Brain Busselle.
