Acknowledgement

With immense pleasure, the authoress expresses her deepest sense of gratitude and indebtedness to Dr. Manab Deka, Professor, Department of Biological Sciences, Gauhati University and Dr. Dileep Kumar. B.S., Principal Scientist, Agroprocessing and Natural Products Division, National Institute for Interdisciplinary Science and Technology (NIIST), Thiruvananthapuram, for giving her the guidance and encouragement during the course of the investigation and preparation of this manuscript.

Her thanks are also due to Dr. R.J. Bharali, Professor and Head of the Department of Biotechnology, Gauhati University and other faculty members for their kind and valuable advices rendered during the course of the work.

The authoress is thankful to Dr. D.J. Hazarika, Senior Scientific Officer, Directorate of Forensic Sciences, Kahilipara, Assam for his help in GC-MS analyses during the course of investigation.

She offers her thanks to Dr. Radha Prasanna, Professor, Department of Microbiology, Indian Agricultural Research Institute (IARI), New Delhi, for her help during carrying out Acetylene reduction assay.

Sincere thanks are due to Dr. A.K. Sharma, Associate Professor, in the Department of Livestock Production and Management, College of Veterinary Science, Khanapara, Assam Agricultural University, for his help in carrying out statistical analyses.

The authoress remains thankful to Dr. I. K. Bhattacharyya, Dr S. R. Patgiri and Dr. R. Mahanta of Cotton College for their help and encouragement.

Last but not the least, the authoress expresses her heartfelt thanks to her father Dr. H.K Mazumdar, mother Nirupama Mazumdar, husband Mr. Ranjit Sarmah, Brothers, daughter Chiklee, other family members and relatives for their constant inspiration and moral support beyond the academic scene without which it would have not been possible to accomplish the work.

The authoress
