ACKNOWLEDGEMENTS

It is with profound sense of gratitude I acknowledge the guidance and support given to me by my guide Dr. S. Ravichandra Reddy, Professor of Fishery, Department of Zoology, Bangalore University, Bangalore 560 056, who supervised the present work throughout its completion. I am especially thankful to him for providing constructive criticisms and personal attention given to me both during field work and in the compilation of this thesis.

I am highly indebted to Dr. Katre Shakuntala, Professor, Department of Zoology, Bangalore University, Bangalore 560 056, for the invaluable guidance and help given to me during the tenure of this work and in the compilation of the thesis. I also wish to place on record her incisive analysis and wise counsel given during my work on histological aspects.

I am thankful to the Chairperson, Department of Zoology, Bangalore University, Bangalore 560 056, for extending facilities in the Department.

I acknowledge the help rendered to me by the Chief Scientist, Central Institute of Freshwater Aquaculture, Bangalore and his colleagues for providing facilities of the microscope during the present work.

The compilation of this thesis and its present get up would not have been possible but for the timely help provided in the neat word processing, preparation of excellent figures, photographs and computer assistance. It is with great pleasure that I record here, my gratitude to my colleague Miss C. Amruthavalli, Mr. M.J. Sundara Ram (Vijaya College, Bangalore), Mr. A. Ramu (Photographer), Mr. A.V. Narayan (Draftsman) and Sri. S. Sridhar (Navbharath Press) for D.T.P. facilities.

Several of my colleagues from the Aqua-Laboratory have helped me in my work and extended cooperation during the compilation of the thesis. I owe a deep sense of gratitude to them.

I am also thankful to Mr. Chikkavenkataiah and Mr. Narayana Swamy for assisting me in the field work.

I express my indebtedness and reverence to my parents for their affectionate help and support given to me during the tenure of this work.

Award of financial assistance by the University Grants Commission, New Delhi under the Research Project No. F. 3-77/86 (SR-II), is gratefully acknowledged.

S. SRIVATHSA
