</table>
Correlation co-efficient between different factors influencing foraging activity of *Apis cerana indica* F. on *Mangifera indica* L. flowers

Correlation co-efficient between different factors influencing foraging activity of *Apis cerana indica* F. on *Pongamia pinnata* (L.) Pierre flowers

Correlation co-efficient between different factors influencing foraging activity of *Apis cerana indica* F. on *Calvillea racemosa* Boj. flowers

Correlation co-efficient between different factors influencing foraging activity of *Apis cerana indica* F. on *Eucalyptus* sps. flowers

Correlation co-efficient between different factors influencing foraging activity of *Apis cerana indica* F. on *Peltophorum pterocarpum* (D.C.) Baker ex Heyne flowers

Mean number of foragers of *Apis cerana indica* F. returning with pollen, nectar, and pollen and nectar during different hours of the day

Relative size of pollen and nectar loads collected by *Apis cerana indica* F. during different hours of the day

Mean pollen foragers of *Apis cerana indica* F. returning with big, medium and small loads of pollen during the day

Mean nectar foragers of *Apis cerana indica* F. returning with big, medium and small loads of nectar during the day

Comparative size of nectar loads collected by *Apis cerana indica* F. in different test plants

Comparative size of pollen loads collected by *Apis cerana indica* F. in different test plants

Comparative analysis of foraging loads of nectar and pollen foraging honeybees

Variations in the contents of crop and corbicular of pollen foraging honeybees at different stages of the foraging trip

Relative number of foragers collecting pollen from *Vicia faba* and *Brassica* sps. at different times of day
Relative number of foragers collecting pollen from *Brassica* ssp. and *Anthriscus* ssp. at different times of day

Constancy of foraging load of marked pollen gathering bees on *Vicia faba*, *Brassica* ssp. and *Anthriscus* ssp. at different times of day

Time and rate of switching of marked pollen bees collecting pollen on *Brassica* ssp. to *Vicia faba*

Time and rate of switching of marked pollen foragers on *Brassica* ssp. to *Anthriscus* ssp.

Rate of switching of marked foragers visiting *Vicia faba* for pollen (P), nectar (n) and extra floral nectar (efn)

Rate of switching of pollen foraging bees on *Vicia faba* (V), *Brassica* ssp. (B) and *Anthriscus* ssp. (A) to sugar syrup feeding

Rate of switching and re-switching by the bees originally visiting *Brassica* ssp. to *Vicia faba* and *Anthriscus* ssp.

Time spent by *Apis cerana* and *Apis dorsata* per flower at different hours of the day on *Moringa oleifera*

Rate of flower visitation by *Apis cerana* and *Apis dorsata* on *Moringa oleifera* at different time of the day

Forage size and foraging time of *Apis cerana* and *Apis dorsata* visiting *Moringa oleifera*

Time spent by *Apis cerana*, *Apis dorsata* and *Apis florea* per flower at different hours of the day on *Millettia penguinisa*

Rate of flower visitation by *Apis cerana*, *Apis dorsata* and *Apis florea* on *Millettia penguinisa* at different time of the day

Forage size and foraging time of *Apis cerana*, *Apis dorsata* and *Apis florea* visiting *Millettia penguinisa*

Time spent by *Apis cerana* and *Apis florea* per flower at different hours of the day on *Mangifera indica*
Rate of flower visitation by *Apis cerana* and *Apis florea* on *Mangifera indica* at different time of the day

Forage size and foraging time of *Apis cerana* and *Apis florea* visiting *Mangifera indica*

Time spent by *Apis cerana*, *Apis dorsata* and *Apis florea* per flower at different hours of the day on *Pongamia pinnata*

Rate of flower visitation by *Apis cerana*, *Apis dorsata* and *Apis florea* on *Pongamia pinnata* at different time of the day

Forage size and foraging time of *Apis cerana*, *Apis dorsata* and *Apis florea* visiting *Pongamia pinnata*

Time spent by *Apis cerana*, *Apis dorsata* and *Apis florea* per flower at different hours of the day on *Calvillea racemosa*

Rate of flower visitation by *Apis cerana*, *Apis dorsata* and *Apis florea* on *Calvillea racemosa* at different time of the day

Forage size and foraging time of *Apis cerana*, *Apis dorsata* and *Apis florea* visiting *Calvillea racemosa*

Time spent by *Apis cerana*, *Apis dorsata* and *Apis florea* per flower at different hours of the day on *Eucalyptus ssp.*

Rate of flower visitation by *Apis cerana*, *Apis dorsata* and *Apis florea* on *Eucalyptus ssp.* at different time of the day

Forage size and foraging time of *Apis cerana*, *Apis dorsata* and *Apis florea* visiting *Eucalyptus ssp.*

Time spent by *Apis cerana*, *Apis dorsata* and *Apis florea* per flower at different hours of the day on *Peltophorum pterocarpum*

Rate of flower visitation by *Apis cerana*, *Apis dorsata* and *Apis florea* on *Peltophorum pterocarpum* at different time of the day

Forage size and foraging time of *Apis cerana*, *Apis dorsata* and *Apis florea* visiting *Peltophorum pterocarpum*
