CHAPTER I

GENERAL INTRODUCTION

1.1 Introduction 1
1.2 Brans – Dicke scalar-tensor theory of gravitation 9
1.3 Barber’s Self-creation theory of gravitation 17
1.4 Saez – Ballester scalar-tensor theory of gravitation 19
1.5 Sen theory of gravitation based on Lyra geometry 22
1.6 Cosmology and Cosmological models 25
1.7 String cosmology 29
1.8 Bianchi Space times 33
1.9 Dark energy 36
1.10 Problems investigated 38

CHAPTER II

BIANCHI TYPES II, VIII & IX STRING COSMOLOGICAL MODELS WITH BULK VISCOSITY IN BRANS-DICKE THEORY OF GRAVITATION

2.1 Introduction 43
2.2 Metric and field equations 47
2.3 Bianchi types II, VIII & IX string cosmological models with bulk viscosity 51
CHAPTER-III

AXIALLY SYMMETRIC COSMOLOGICAL MODELS IN SOME SCALAR TENSOR THEORIES OF GRAVITATION

3.1 Introduction 61

3.2 Axially symmetric cosmological model with strange quark matter attached to string cloud in Brans – Dicke theory of gravitation 64

3.3 Axially symmetric perfect fluid cosmological models in Brans – Dicke theory of gravitation 77

3.4 Axially symmetric string cosmological model with bulk viscosity in Self creation theory of gravitation 87

3.5 Some important features of the models with conclusions 99
CHAPTER-IV
HIGHER DIMENSIONAL VACCUM AND STRING COSMOLOGICAL MODELS IN BRANS-DICKE THEORY OF GRAVITATION

4.1 Introduction 110
4.2 Metric and field equations 112
4.3 Higher dimensional string cosmological models 115
4.4 Some important features of the models 122
4.5 Conclusions 125

CHAPTER-V
BIANCHI TYPE - II, VIII & IX COSMOLOGICAL MODELS WITH STRANGE QUARK MATTER ATTACHED TO STRING CLOUD IN BRANS-DICKE AND GENERAL THEORY OF GRAVITATION

5.1 Introduction 127
5.2 Metric and field equations 132
5.3 Bianchi type - II, VIII & IX cosmological models with strange quark matter attached to string cloud in Brans - Dicke and general theory of gravitation 136
5.4 Some important features of the models 146
5.5 Conclusions 148

CHAPTER-VI

BIANCHI TYPE-II, VIII & IX MAGNETIZED COSMOLOGICAL MODELS IN SEN THEORY OF GRAVITATION BASED ON LYRA GEOMETRY

6.1 Introduction 150
6.2 Metric and field equations 153
6.3 Bianchi type-II, VIII & IX magnetized cosmological models 158
6.4 Some important features of the models 165
6.5 Conclusions 170

CHAPTER-VII

BIANCHI TYPES II, VIII & IX STRING COSMOLOGICAL MODELS WITH BULK VISCOSITY IN LYRA GEOMETRY

7.1 Introduction 172
7.2 Metric and field equations 175
7.3 Bianchi types II, VIII & IX string cosmological models with bulk viscosity 178
CHAPTER-VIII

BIANCHI TYPE - II, VIII & IX PERFECT FLUID DARK ENERGY COSMOLOGICAL MODELS IN SAEZ - BALLESTER AND GENERAL THEORY OF GRAVITATION

8.1 Introduction 198
8.2 Metric and field equations 202
8.3 Bianchi type - II, VIII & IX perfect fluid dark energy cosmological models 205
8.4 Some important features of the models 224
8.5 Conclusions 229
