Milestones in life are achieved, not by individual efforts but by blessings and guidance of elders, near and dear ones. Last but not the least, whatever endeavour I have put to prepare this work, it would not have been possible without the support of my loving parents, who sacrificed a lot for my welfare and provided me the right impetus soulfully to undertake a challenge of this proportial.

Words will fall short to express my feelings for my Father. He was the first person to tell me all I needed to know about the value of higher education in becoming a better person by his simple eloquence. Education commences at the mother’s knee, my Mother is the soul of my energy. Her blessings have always leaded me towards achieving my goals. I cannot repay her silent patience and constant encouragement. She stood by me whenever I felt down, pepped me up when my spirit dampened.

It is my proud privilege to utilize this golden moment and bow myself to acknowledge my husband Mr. Raveesh and beloved son Aditya.

I am very thankful to my dearest sister for her constant support and encouragement given throughout my work.

Lastly, the sacrifice made by the animals during the course of study, will not be a waste as this study will uplift mankind. I do pray to the almighty to carry this work for the uplift of mankind.
