LIST OF FIGURES

Figure 3.1 Percentage distribution of gender in the study
Figure 3.2 Prevalence of pathogens in all the clinical specimens
Figure 3.3 Prevalence of pathogens in various hospital departments
Figure 3.4 Sensitivity and resistance pattern of pathogens to commonly used Antibiotics
Figure 4.1 Classification of SSI
Figure 4.2 Summary of surgeries and SSI
Figure 4.3 Prevalence of pathogens
Figure 4.4 Sensitivity and resistance pattern of pathogens to commonly used Antibiotics
Figure 5.1 Prevalence of infection in gastrointestinal surgeries
Figure 5.2 Prevalence of surgical wound type
Figure 5.3 Age wise distribution
Figure 5.4 Connection between time of antimicrobial prophylaxis administration and risk of infection
Figure 5.5 Cost of Surgical Antimicrobial Prophylaxis treatment with the prevalence of infection
Figure 5.6 Cost of empirical antimicrobial treatment with the prevalence of infection
Figure 5.7 Isolation of pathogens from postoperative wound infection
Figure 5.8 Antimicrobial sensitivity and resistance of isolated pathogens
Figure 5.9  Influence of patient factors on prevalence of infection

Figure 6.1  Prevalence of gastrointestinal surgeries

Figure 6.2  Connection between time of antimicrobial prophylaxis administration and risk of infection

Figure 6.3  Antimicrobial Prophylaxis treatment with the prevalence of infection

Figure 6.4  Empirical antimicrobial treatment with the prevalence of infection

Figure 6.5  Isolation of pathogens from postoperative wound infection

Figure 6.6  Antimicrobial sensitivity and resistance of isolated pathogens

Figure 6.7  Influence of pre operative hospital stay on prevalence of infection

Figure 6.8  Influence of patient factors on prevalence of infection
LIST OF TABLES

Table 3.1  Prevalence of pathogens in the clinical specimens
Table 3.2  Prevalence of pathogens in various hospital departments
Table 3.3  Sensitivity and resistance pattern of pathogens to commonly used Antibiotics
Table 4.1  Summary of surgeries and SSI
Table 4.2  Prevalence of pathogens
Table 4.3  Sensitivity and resistance pattern of pathogens to commonly used Antibiotics
Table 5.1  Prevalence of gastrointestinal surgeries
Table 5.2  Prevalence of surgical wound type
Table 5.3  Gender wise distribution
Table 5.4  Age wise distribution
Table 5.5  Connection between time of antimicrobial prophylaxis administration and risk of infection
Table 5.6  Cost of Surgical Antimicrobial Prophylaxis treatment with the prevalence of infection
Table 5.7  Total cost of treatment 1
Table 5.8  Total cost of treatment 2
Table 5.9  Total cost of treatment 3
Table 5.10  Cost per course of empirical antimicrobial treatment with the prevalence of infection
Table 5.11  Isolation of pathogens from postoperative wound infection Comorbid condition vs Normal patients
Table 5.12  Antimicrobial sensitivity and resistance of isolated pathogens
Table 5.13  Influence of Preoperative hospital stay on the prevalence of infection
Table 5.14  Influence of smoking on prevalence of infection
Table 5.15  Influence of Alcoholic abuse on prevalence of infection
Table 5.16  Prevalence of infection among Patients with
Table 6.1   Recommended prophylaxis antimicrobials
Table 6.2   Recommendations to the patients
Table 6.3   Prevalence of gastrointestinal surgeries
Table 6.4   Prevalence of surgical wound type
Table 6.5   Connection between time of antimicrobial prophylaxis
administration and risk of infection
Table 6.6   Antimicrobial Prophylaxis treatment with the prevalence of infection
Table 6.7   Empirical antimicrobial treatment with the prevalence of infection
Table 6.8   Isolation of pathogens from postoperative wound infection
Table 6.9   Antimicrobial sensitivity and resistance of isolated pathogens
Table 6.10  Influence of Pre operative hospital stay on prevalence of infection
Table 6.11  Influence of smoking on prevalence of infection
Table 6.12  Influence of alcohol abuse on prevalence of infection
Table 6.13  Influence of comorbid condition on prevalence of infection
Table 6.14  The outcome of the intervention study
