ACKNOWLEDGEMENTS

I express my deep sense of gratitude to my guru and research guide, Dr. G. K. Kulkarni, Professor (Retd.), Department of Zoology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad. He has always found me the light, whenever it was far away. His personal care, deep involvement, stimulating discussions, humble and inspiring guidance throughout my research work has given me the confidence and motivation to pursue research. Without his parental care, patience, suggestions and support, this thesis would not have ever evolved.

I am deeply indebted to my co guide and mentor Dr. P. Perumal, Principal, J.K.K. Natraja College of Pharmacy, Komarapalayam, Tamil Nadu, who supported me in all ways in during my research. His humility and faith in me has been unparalleled. His valuable guidance has helped me to reach this stage of my work. Without his help and support this thesis would never had seen light of the day.

I am grateful to Dr. S. P. Zambare, Professor and Head, Department of Zoology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad for his encouragement and administrative help time to time.

I express my deepest gratitude to Dr. S. J. Devdhe Patil, Managing Director, Smt. Taisaheb Kadam Education and Research Center’s Yash Institute of Pharmacy, Aurangabad for providing the facilities required for this research. His constant encouragement, guidance and wholehearted support for this endeavor helped me to balance my family and work. He stood behind us in every difficulty. As a “karta” of our Yash Parivar, he has always taken a great care of all younger members of our parivar.

I take this opportunity to express my heartfelt thanks to our beloved Principal, Dr. S. S. Angadi, who stood behind me and my family in happiness and sorrows, success and failures. He did everything possible to ensure smooth administrative procedures at all steps of this work. He proactively and resourcefully ensured timely supply of all requirements
during experimental part of this work. Without his help, I could never have reached this step in my life.

I offer my sincere thanks to Mrs. Hiral F. Majmudar, Professor, Department of Pharmacognosy, Yash Institute of Pharmacy, Aurangabad, for her care and affection extended to me. Her valuable guidance during the selection of natural products for this study was crucial. I would like to express thanks to Mr. P. N. Shroff, Professor, Department of Pharmaceutical Analysis, Yash Institute of Pharmacy, Aurangabad, for his support and encouragement during course of this study.

I express my sincere thanks to my colleague Mrs. V. P. Patil, Assistant Professor, Department of Pharmaceutical Analysis, Yash Institute of Pharmacy, Aurangabad. Her help and guidance during analytical method development phase of this work was precious.

My hearty thanks to Mr. Ashok Narute for helping me throughout the course of my studies. He has always been a source of enthusiasm in our lab. I would like to thank Mr. Yuvraj Girbane, Lecturer, Department of Pharmaceutical Chemistry, for his sincere well wishes and constant help. Spiritual discussions with him have always inspired me a lot. I am thankful to my younger colleagues, Mr. Prashant Tayde, Mr. Santosh Shelke, Mr. Mahesh Gaikwad, Mr. Ramankumar Chandak and Mr. Vaibhav Changediya for being there whenever I needed them. I would like to specially thank youngest members of our Yash Parivar, Ms. Suvarna Kale and Mr. Abhay Joshi for their valuable help during preparation of this thesis.

I would like express my gratitude to my friend Mr. Vinod Udawant, Librarian, Yash Institute of Pharmacy, Aurangabad. He has always been part of my support group with his humble and sincere nature.

I remember my colleague and friend, Late Mr. Shrikant Jagtap, the void he left behind upon his untimely sad demise would never fill up. I wish to thank Mr. Bhasaheb Kank, who helped a lot during this work, I would also like to thank our non teaching staff at Department of Pharmaceutical Analysis, Mr. Shinde, Mr. Tanpure and Mr. Arun for helping me with my experiments. I express my sincere appreciation to Ms. Priyanka.
Shendrekar and Ms. Charushila Tambe, M.Pharm students of our Department of Pharmaceutical Analysis for their help with differential thermal analysis.

My sincere thanks to Mrs. Bhama Sudharsan, Assistant Professor, Shri, Bhagwan College of Pharmacy, for her help and guidance during embryo studies. Her tips for optimization and aseptic handling of the embryos were invaluable. She has always inspired and encouraged me to develop innovative ideas. I express my gratitude to Dr. Anil M. Mungikar, Professor (Retd.), Department of Botany for timely training on research statistics imparted during the data analysis phase of this work. My special thanks to Dr. Shashank Sonwane, Assistant Professor Department of Library and Information Science, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad for his help.

I wish to express my sincere thanks to Dr. Sanjay Toshniwal, Vashim Institute of Pharmacy, Vashim for his constant support and help. He was the key motivator behind this research.

I would like to thank my husband and research colleague, Mr. Gajanan A. Vaishnav Assistant Professor, Department of Pharmaceutical Analysis, Yash Institute of Pharmacy, for his help, support and encouragement.

As I may unintentionally skip somebody, I thank them in the first place, everyone who has felt “forgotten” after reading this. I thank all the seen and unseen hands and heads who had helped me during this work.

Above all thanks to almighty, Lord Ganesha, Lord Ambabai and Lord Jagannath for getting this work done through my hands.

Acknowledgements are many, but lines are few;
A Gratitude so deep
that words not do!

Sushama Gajanan Vaishnav (Hota)
