ACKNOWLEDGEMENT

My thesis work would not have been accomplished without the support of several people.

I would like to express my gratitude to my guide Dr. K. Paul Raj, Associate Professor and Head, Department of Botany and Research Centre, NMCC, Marthandam for his advice, encouragement, guidance and for providing all essential facilities. He has been supportive and has given me the freedom to pursue the work without any objection.

I am very much thankful to Young Scientist Dr. S. Jeeva, Assistant Professor, Department of Botany, Scott Christian College, Nagercoil for his unflinching encouragement, support and lending a hand in the smooth progress of my work throughout the research period without which it would have been difficult for me to achieve the goal.

I would like to thank Mr. C.P. Ben, Assistant Professor, Department of Botany, NMCC, Marthandam for being the person who taught me how to work in plant tissue culture. His advice, encouraging words and willingness to share his bright thoughts with me, which was very fruitful for shaping up my ideas and research.

I render my gratitude to Dr. J. Thampi Thanka Kumaran, Principal, Nesamony Memorial Christian College, Marthandam for providing me all the necessary facilities.
I wish to acknowledge all the faculty members of the Department of Botany, NMCC, Marthandam for rendering me invaluable help and support.

I convey my special acknowledgement to Mrs. Joy Mohan Das, former HOD of Botany, WCC, Nagercoil for her support and motivation.

I also express my gratitude to Dr. B.D. Sheeja Ebenezer, Assistant Professor, Department of Botany, Govt. Arts College, Ooty, Dr. T.F. Abbs Fen Reji, Assistant Professor, Department of Chemistry, NMCC, Marthandam, Dr. P.J. Jegan Babu, Assistant Professor, Department of Physics, NMCC, Marthandam, Mrs. S. Sunitha, Assistant Professor, Department of English, NMCC, Marthandam, Dr. G. Prem Kumar, Assistant Professor, Department of Botany, Virudhunagar Hindu Nadar’s Senthikumara Nadar College, Virudhunager and Dr. S. Rajan, Assistant Professor, Department of Microbiology, MR Govt. Arts College, Mannarkudy for being supportive in this work.

I thank the Centre for Biodiversity and Biotechnology, St. Xaviers College, Palayamkottai for providing enough training in tissue culture techniques. I also thank Ayya Nadar Janaki Ammal College (Autonomous), Sivakasi for the help dealing with FTIR, Dr. P. Jayaraman, Director of Plant Anatomy Research Centre, Chennai for his help in anatomical studies, Dr. N. Agnel Arul John, Assistant Professor, Srimad Aandavar Arts and Science College, Trichy for his support in antiobesity study.
I wish to acknowledge Manian Institute of Science and Technology, Coimbatore, for their enormous cooperation and help in in vitro antioxidant and antidiabetic studies.

I would like to thank The South Indian Textile Research Association for their help dealing with GC-MS analysis.

I convey my acknowledgement to all the non-teaching staffs of our department for their help during the research period.

I would like to express my sincere thanks to my dear friends, particularly Mrs. T. Binish, Mrs. Jenitha D. Prakash, Miss. J. Joselin and Mrs. A.R. Florence for their help and good wishes. I gained a lot of information from them, through their personal and scholarly interactions at various points of my research programme.

I am very much indebted to my family and relatives, they encouraged and helped me at every stage of my personal and academic life and longed to see this achievement come true.

I also thank Department of Collegiate Education for providing stipend.

Ultimately, I am grateful to Almighty God by whom all good deeds are completed.
