ACKNOWLEDGEMENT

This thesis would not have been possible without the guidance and the help of several individuals who in one way or another contributed and extended their valuable assistance in the preparation and completion of this research work. I am deeply indebted to my research guide, **Dr. Syed Azharuddin**, Associate Professor, for accommodating me as a research scholar and giving persistent encouragement and unflinching support till the last lap of this study. I could not have imagined having a better advisor and mentor for my thesis research. Without his guidance, knowledge, perceptiveness and cracking-of-the-whip I would have never finished. His deep insights helped me at various stages of my research. I also remain indebted to him for enriching me with invaluable knowledge and capabilities, his understanding and support during the times.

I express my wholehearted gratitude to Prof. Dr. W. K. Sarwade, Controller of Examinations, Dr. Babasaheb Ambedkar Marathwada University for his cooperation and encouragement.

Furthermore, I am indebted to my friend Dr. Abdul Muqeeet for providing me all the needed support and cooperation during all times. I am also obliged to Dr. Vidya Gawli and Dr. Mohammed Raffey for extending their assistance in completion of my thesis.

I shall be failing in my duty if I do not acknowledge the invaluable guidance and support of Prof. Dilip S. Gour and also of Prof. Sudhir R. Sevekar, who were great source of inspiration for me.

I cannot forget friends and my colleagues (both present and former) who went through hard times together, cheered me on, and celebrated each accomplishment.
Words cannot express the feelings I have for my entire family, especially my wife for their constant unconditional support - both emotionally and financially.

I also really appreciate whoever has helped and encouraged me through this process, even though I cannot name every single person here.

Lastly, I thank GOD for many ways in which he has blessed my life and made all of this possible.

A big “Thank you!” also goes out to everybody who participated in this study.

Date: Amol R. Murgai
