I owe the greatest debt of gratitude to Dr. G. P. Sharma, M.Sc.(Hons.School), Ph.D. (Pb.), Ph.D.(Edin.), F.A.Z., F.I.A.Z., F.Z.S., F.Z.S.I., F.R.S.I., F.N.A.Sc., F.R.S., Professor and Head of the Department of Zoology, Panjab University, Chandigarh who lit the way and led me on. It has been my privilege to work under his able supervision. His constant advice and rich experience prevented me from straying out the orbit of the actual research problem. I feel extremely indebted to him for critically going through the manuscript of this thesis.

I am especially indebted to Prof. R. O. Satija for his encouragement and practical suggestions during the entire course of the present investigations.

Grateful appreciation is expressed for Prof. P.N. Chuttani, Director, Post Graduate Institute of Medical
Education and Research, Chandigarh for allowing me to collect the material for the present research work.

I wish to thank Prof. J.K. Jolly, head of the Department of Pediatrics for rendering substantial assistance and useful suggestions during the entire course of the present investigations.

I am extremely thankful to Prof. S.K. Muli, head of the Neurosurgery Department; Prof. P.L. Iahi, Head of the Department of Medicine; Drs. S.K. Kak, P.S. Sidwai, Mohini Mahajan and Santosh Kumar of the Post-Graduate Institute of Medical Education and Research for their constant encouragement and ever-ready help.

I would like to thank Prof. Harjit Singh, Head of the Department of Clinical Medicine and his students, particularly Dr. Harinder Kumar of the Mohindra Hospital, Patiala for the help they rendered to me in collecting the material of leukemic patients.

I would like to express my sincere appreciations to the members of the faculties of the Post-Graduate Institute of Medical Education and Research and of the Department of Zoology, Panjab University, Chandigarh to whom I turned for casual consultations and found them unprudgingly helpful.
I am extremely thankful to my respected parents whose all time encouragement and co-operation helped me to undertake and complete this work.

Thanks are also due to Miss Veena Sawhney and Miss Chander Mohini, Research Scholars for rendering help as and when required.

To Shri D. R. Singla and Shri R. K. Pathria, I owe my humble gratitude for their ever-ready cooperation and help.

I would also like to acknowledge the help given to me by Shri Gurcharan Singh in the technical portion of the thesis.

Above all, I must thank the unfortunate patients who made the greatest contribution towards the present piece of research.

(Ranbir Chander Sobi)
