ACKNOWLEDGEMENTS

I gratefully acknowledge my sincerest indebtedness to Professor G. P. Sharma, M. Sc. (Hons.), Ph. D. (Ph.), Ph. D. (Edin.), F.A.Z., F.I.A.Z., F.Z.S., F.Z.S.I., F.A.M.S., F.N.A.Sc., F.N.A., Head of the Department of Zoology, Panjab University, Chandigarh for his able guidance, constructive criticism, continuous encouragement and thorough scrutiny of the manuscript of this thesis. I am also thankful to him for providing to me the necessary laboratory facilities.

I wish to express my sincerest gratitude to late Dr. R. C. Satija, Professor, Department of Zoology, Panjab University, Chandigarh for suggesting to me this interesting line of research, and for his able guidance and continuous encouragement till he was with us.

I am thankful to Dr. S. K. Taneja, Lecturer, Department of Zoology, Panjab University, Chandigarh for his help in preparing the manuscript of this thesis.

I thank Shri K. K. Mahajan, Specialist, Life sciences, Department of Science and Technology, Government of India, New Delhi, for helping me in the collection of material at Solan.
I am grateful to the Director, Zoological Survey of India, Calcutta and Dr. H. R. Pajni, Reader in Entomology, Department of Zoology, Panjab University, Chandigarh for their help in the identification of insects.

Words fail me to express my gratitude to my parents to whose love and inspiration, I owe all my achievements. My thanks are also due to my numerous friends, who have generously assisted me in various ways.

The financial assistance provided to me by the Panjab University, Chandigarh, and the Council of Scientific and Industrial Research, New Delhi, is also gratefully acknowledged.
