ACKNOWLEDGEMENTS

I would like to express my gratitude to the many people who made this endeavor of mine possible. I take this opportunity to express a deep sense of gratitude to my esteemed supervisor, Dr. R.P. Singh, Reader, D.A.V College, Muzaffarnagar (U.P.) for his invaluable guidance, profound expertise, inspiration, encouragement and motivation throughout the course of this work, without which this study could never have been completed. He has played a very important role in helping me. I will be always indebted to him for his kind and continued support. He has been a very caring and motivating guide and no words are sufficient to thank him. I am also extremely thankful to Mrs. Archana Singh, without her co-operation it was impossible to complete this work.

I am sincerely thankful to Dr. P.V. Malik, Principal, Sanjay Gandhi Post Graduate College, Sarurpur Khurd (Meerut), for not only providing me all facilities during my research work, but also giving his valuable advice and untiring help during this research work.

I wish to extend my thanks to Dr. Virender Singh, Head of the Department of Physics, Dr. Bharatveer Singh, Head of the Department of Botany, Dr. Reena Tyagi, Head of the Department of Chemistry and Mr. P.K. Srivastava for their insightful comments and constructive suggestions to improve the quality of this research work.

I want to give my warm thanks to Dr. Romy Chaudhary, Dr. Aditya Singh Tomar, Dr. Rahul Kumar, Dr. Narendra Singh, Mr. Praveen Kumar Baliaan, Mrs. Lalita Dinesh Kumar and Ms. Sarita Sahrawat for their valuable advice and help. I am highly thankful to Mr. Satveer Singh and other members of chemistry laboratory for helping me in experimental work.

I feel a deep sense of gratitude for my parents, Mr. Sahansar Pal Singh and Mrs. Anita Devi for their unconditional support and love, and they stood behind me in all my efforts and endeavors to achieve excellence in my work.

My special gratitude to my parents Mr. Sarbchan Singh and Mrs. Shimla Devi who inspired me for the higher degree and this could not happened without their help over the years.

Finally, my acknowledgement shall remain incomplete if I do not express my sincere gratitude to my brother Mr. Vijay Kumar and his wife Mrs. Priyanka, my sisters Mrs. Mamta Panwar, Mrs. Sangeeta Sirohi, Mrs. Ravita Baliaan and Mrs. Neerupma Sirohi.

And in last but not least I want to deliver a special gratitude for my husband Mr. Navneet Kumar for his valuable time and co-operation during this research work.

I am also thankful to Mr. Shashank Sharma for decent Computer Typing and Setting of the Thesis in this form.

At the end, I would like to thank Almighty God, for the blessings, showered on me, without which it would have been rather impossible for me to complete this work.
