Acknowledgement

I am greatly indebted to my supervisor Prof. Kali Prasad Sarma for providing me with an excellent opportunity to work in his research group. I am thankful for his valuable guidance, encouragement and support extended throughout my research works without which timely completion of my Ph.D works would not have been possible. I would like to express gratitude to Dr. Pritam Deb, Co-supervisor, who took me under his wing and has always been extremely generous with his time, knowledge and ideas and allowed me great freedom in this research. Their endless excitements for research and helpful discussions have made the research experience more enjoyable and I am greatly appreciative.

I would like to express my deep sense of gratitude to Prof. Dipankar Chakrabortii, Director, School of Environmental Studies (SOES), Jadavpur University, Kolkata, for his hand holding guidances and who together with Dr. Bhaskar Das, Mr. Matthew Murril, Dr. Reshmi Das, Dr. Tarit Roy Choudhury and entire staff of SOES acted as team to provide me with valuable technical guidance, assistance and greater scientific outlook.

I am thankful to the Department of Science and Technology, Govt of India, for awarding me with Jagadis Bose National Science Talent Search Visiting Fellowship which helped me to get introduced with good laboratory practices of SOES and groundwater study of Majuli island.

I thank the University Grant Commission (UGC) for funding the Tezpur University Institutional Fellowship which has helped me to complete the research work. I express gratitude to the authorities of Tezpur University for granting me the permission to do this work.

Thanks to Dr. Ashim Jyoti Thakur, Chemical Science Department, Tezpur University, who had great understanding for my research and gave me his moral and technical support throughout my research. I am very much thankful to Upasona, Madhulekha, Rajesh and Deepak for being my supportive colleagues.

However, most of all I want to express my gratitude to my husband, Ritu Thakur, who stood next to me through thin and thick during my entire Ph.D studies, and to my parents and sisters to whom this work is dedicated.

Ritusmita Goswami
