CONTENTS

CHAPTER I

INTRODUCTION 1
Effects of Alcohol 4
Assessment in Alcoholism 7
Treatment of Alcoholism 9
Outcome and Drop out 11
Factors related to treatment outcome 14
Need for the present study 18
The present study 19
Utility of the study 20

CHAPTER II

REVIEW OF THE LITERATURE 21
Faradic aversion therapy 22
Covert Sensitization 31
Social skills training 37
Alcohol education 40
Behavioral counseling 42
Broadspectrum treatment approaches 45
Locus of control and alcoholism 51
Personality and outcome 60
Alcohol related expectancies 67
Factors associated with treatment outcome 73
Factors associated with dropout 80

CHAPTER III

BEHAVIORAL APPROACHES TO ALCOHOLISM: TOWARDS FORMULATION OF AN INTERVENTION PROGRAM 88
Classical conditioning model 89
Operant conditioning model 90
Tension reduction hypothesis 91
Motivational model of Alcohol use 91
Perceptual narrowing model 92
Self-awareness model 93
Self-handicapping theory 93
Marlatt's expectancy model 94
Biopsychosocial model 95
Alcoholism: Towards a Biopsychosocial approach 95
Towards a treatment program 102

CHAPTER IV

THE PRESENT STUDY 105
Statement of the problem 105
Aims and problems to be investigated 105
Experimental design 106
Sample 108
Description of tools 112
CHAPTER V

RESULTS

Classification of outcome
Clinical characteristics of treatment completers and drop-outs
Sociodemographic characteristics and outcome
Other clinical aspects and outcome
Drinking related Locus of control and outcome
Personality and outcome
Motivation for taking alcohol and outcome

CHAPTER VI

DISCUSSION

Clinical characteristics of treatment completers and drop-outs
History of other substance abuse
Analyses of outcome
Duration of follow-up and outcome
History of drinking during treatment
Booster sessions
Reasons for taking alcohol among treatment completers following therapy
Reasons for relapse and access to alcohol
Reasons for drop-out
Locus of control and outcome
Personality characteristics of treatment completers and drop-outs
Personality characteristics of outcome groups
Motivation for taking alcohol among treatment completers and drop-outs
Significant prognostic indicators
Problems encountered during the study
Implications

CHAPTER VII

SUMMARY AND CONCLUSION

BIBLIOGRAPHY
APPENDICES

I. Alcoholism history proforma \hspace{2cm} A1
II. Drinking related locus of control scale \hspace{2cm} A12
III. California test of personality \hspace{2cm} A14
IV. Rating scale to assess motivation to take alcohol \hspace{2cm} A23
V. Follow-up Interview Schedule \hspace{2cm} A27
VI. Treatment program \hspace{2cm} A29
