LIST OF APPENDICES

Appendix 1. Screen shots:

1.1 Screen shots of search and retrieval modules on SCI
1.2 Selected screen shots of dataset search modules

Appendix 2. MySql table structure

Appendix 3. Batch program to run Stakey/Batutil TSR program

Appendix 4. Sample list of possible error records with wrong /different country, state and institution names:

Appendix 5. Program listings:

5.1 Program listing for uploading records to MySql table
5.2 Sample Program listings used for searching the dataset: Country Collaboration
5.3 Sample Program listings used for searching the dataset: Country Collaboration

Appendix 6. Tables:

6.1 Table 3.1. Definition of data items covered by SCI
6.2 Table 3.2. Subject categories based on journal titles
6.3 Table 4.5. Comparison of India's publication details with other countries
6.4 Table 4.6. Journal Coverage of different countries as given in JCR
6.5 Table 4.7. Distribution of Publication productivity, GDP and Journal coverage in JCR among different countries
6.6 Table 5.1. Indicators of evaluation
6.7 Table 5.4. Discipline wise Institutional Productivity distribution of top ten institutions
6.8 Table 6.3 Country wise distribution of collaboration
6.9 Table 7.1 Percentage of citation, citation per paper, and impact factor of publications in different disciplines.
6.10 Table 7.5 Top ten authors receiving citations for the papers published in 1993
6.11 Table 7.6 Top ten authors receiving citations for the papers published in 1994
6.12 Table 7.9. Top ten source journals in different disciplines
6.13 Table 7.10. Comparison of source journals in terms of higher productivity and impact
6.14 Table 7.11. Comparison of source journals in terms of lower productivity and impact
6.15 Table 7.14. Top ten source institutions in different disciplines
6.16 Table 7.16. Citation analysis of top ten institutions: Sector wise distribution
6.17 Table 7.17. Comparison of source institutions in terms of higher productivity and impact factor
6.18 Table 7.18. Comparison of source institutions in terms of lower productivity and impact factor
6.19 Table 8.3. Top ten journals used for publishing in different disciplines with publishers and country of publication
6.20 Table 8.4. Top ten journals used for publication in different disciplines
6.21 Table 8.7. Top ten journals used in references in different disciplines
6.22 Table 8.10. Percentage productivity of top ten journals and top ten journals used in references

Appendix 7. Correspondence analysis of publication patterns of different countries

Appendix 8. Correspondence Analysis of Journal Coverage in JCR database

Appendix 9. Correspondence Analysis of GDP distribution among a few first, second and third world countries

Appendix 10. Correspondence Analysis of Publication Pattern among Different States of India

Appendix 11. Discipline wise analysis of Publication productivity

Appendix 12. Correspondence Analysis of Institutional Productivity

Appendix 13. Correspondence Analysis of International collaboration in different disciplines

Appendix 14. Analysis of multi-authored publications in different disciplines

Appendix 15. Analysis of multi-institutional publications in different disciplines

Appendix 16. Correspondence Analysis of cited references pattern in different discipline
