# Table of Contents

Abbreviations and Symbols                                                                 i  
List of tables                                                                              vi  
General Remarks                                                                             viii 
Thesis Abstract                                                                            xi 

## Chapter I  
*General Introduction*

1.0. Introduction                                     2  
1.1. Computer Aided Drug Design (CADD)               2  
1.2. Quantitative Structure Activity Relationships (QSAR) 4  
1.2.1. Purpose of QSAR                              15  
1.2.2. Applications of QSAR                         16  
1.3. Molecular Docking                              17  
1.3.1. Validation of the accuracy and performance of AutoDock 19  
1.4. The Non-steroidal Anti-inflammatory Drugs (NSAIDs) 19  
1.4.1. Properties of NSAIDs                         20  
1.4.2. Classification of NSAIDs                    20
1.4.3. NSAID Mechanism of Action 23
1.4.4. Cyclooxygenase (COX) 25
1.4.5. Cyclooxygenase-2 (COX-2) 29
1.4.6.1. In vivo animal models 30
1.4.6.2. Methods for testing acute and sub-acute inflammation 31
1.5. References 40

Chapter-II “QSAR: Designing of New Non-Steroidal Anti-inflammatory Drugs and selection of a good synthetic route through Mathematical Modeling”

2.1.0. Motivation 50
2.2. Drug Designing 53
2.3. Multicomponent reactions (MCRs) 57
2.3.1. The Biginelli Reaction 58
2.3.1.1. Discovery 58
2.3.1.2. Mechanism 59
2.3.2. The Petasis Reaction 60
2.4. Present Work 61
2.5. Computational Work and Calculations 62
2.6. A selection of a good synthetic route through mathematical Modeling 65
2.6.1. Retrosynthetic Analysis 65
Chapter-III  Design, Synthesis and Evaluation of New non-steroidal Anti-inflammatory drugs considering Ibuprofen as a lead Compound

3.1.0. Introduction 76
3.1.1. Review of Literature 77
3.1.1.1 Prodrugs of NSAIDs 77
3.1.1.2 Bromination of Ibuprofen 79
3.1.2. Present work 80
3.1.3. Results and discussion 81
3.1.4. Conclusion 88
3.1.5. Experimental 89
3.1.6. Characterization data 90
3.1.7. Spectra 96
3.1.8 Docking 106
3.1.9 References 117

Chapter-IV  Design, Synthesis and Evaluation of New non-steroidal Anti-inflammatory drugs considering Diclofenac as a lead Compound
