ACKNOWLEDGEMENTS

The title of Doctor of Philosophy is one of the hardest earned of all those we strive for. And it carries with it a sense of satisfaction and achievement not easily matched.

But to reach this destination there is a cumulative energy of many people who guide and channelize our efforts by giving a direction.

That’s where the Guru comes in rich in theory and diverse in practically. I take this opportunity to express my sincere gratitude and indebtedness to my guru Dr. Pranab Beheri Mazumder, Associate Professor, HoD. Department of Biotechnology, Assam University Silchar, under whose supervision the present work has been carried and completed. I have no words to express my profound sense of gratitude to his most generous help by concrete suggestions and criticism, fruitful discussions, constant encouragement and guidance during the course of my investigations and preparation of this thesis.

My deep sense of gratitude are due to Prof. Gauri Dutt Sharma, Vice Chancellor Bilashpur University, under whose inspiring and excellent co-guidance, kind encouragement, lively discussions, constructive criticism and keen interest in my progress, helped me to complete this research work. Any statement to express indebtedness, gratitude to him, will necessarily be gross understatement.

I am thankful to Dr. Th. Dabali Singh, MD Babina Clinic and Research Institute Imphal for allowing me to work in the institute and providing me with all facilities.

I express my deep gratitude to Dr. L. Kokindro Singh, Sr. Microbiologist, Assistant Professor Department of Microbiology, JNIMS, Imphal for providing me with the clinical samples.

I express a special debt of gratitude to Mr. Longjam Doren Singh Laboratory Technician Babina Clinic Imphal for his invaluable help for guidance of safety measures and precautions working in the clinic and for his help to carry out my work effectively.
I have a personal pleasure to express my deep sense to gratitude to Miss. Neeta Sarangthem Guest Lecturer, Forestry Department, Manipur University Imphal, for her generous help whenever I needed.

I would like to express my thanks to the research scholars and my friends of Biotechnology Department, Assam University Silchar, for their help.

I also acknowledge all friends and relatives who one way or the other has continuously encouraged me.

No words would be sufficient to express my feelings to my parents and family members for their untiring encouragement, unparalleled patience and moral support throughout the period of my research work.

I would like to express my heartiest regards to Almighty for His blessings.

(L. SHIVADUTTA SINGH)
