Acknowledgement

It has been a pleasure to carry out this research work, primarily due to the stimulating, valuable, guidance and ungrudging help of my guide Professor Animesh Kumar Datta, Department of Botany, University of Kalyani. He supported me with his scientific nimble vision and ever willing help all throughout the voyage of research which has helped in shaping my scientific thoughts.

During the tenure of my research work, I have received tremendous help and co-operation from numerous people who has in one way or other, made this thesis possible. May be I would fail to mention their name individually but I express my sincere thanks to all of them.

My profound gratitude is due to my co-supervisor Prof. Siraj Datta, Professor and Head, Department of Biotechnology, Haldia Institute of Technology, Haldia, for his active, guidance, valuable liberal suggestions, generous and whole hearted support to me throughout this study.

I am grateful to University of Kalyani and all the former and present Head(s) of the Department during the tenure of my research work for providing me facilities to carry on my work.

I am indebted to all the faculty members, Department of Biotechnology, Haldia Institute of Technology, specially Dr. Keya Sau, Dr.Sudip Das, Prof. Pranab Roy, Dr. Mukesh Singh, Dr. Rajarshi Banerjee and Prof. Suvroma Gupta and lab technicians Mrs. Sonali Metya, Mrs. Dora Das and office assistant Mr. Chandan Maity who provided their continuous support, critical suggestions and constant encouragement.

I am thankful to my lab colleagues Dr. Suchetna Mukherjee, Dr. Aninda Mondal, Dr. Babita Saha Dr. Binoy Kr Ghosh, Dr. Prianka Kumari Dubey, Mr. Sandip Halder, Mr. Debadrito Das, Mr. Bapi Ghosh and Ms. Divya Vishambhar Kumbhakar, Department of Botany, University of Kalyani, for extending their help in various ways during the course of the work. Thanks are also due to Sri Ranjan Kirtania for various help.
Acknowledgement

It would be injustice on my part if I don’t acknowledge the contribution of my coworkers, Department of Biotechnology, Haldia Institute of Technology, specially Mr. Tilak Raj Maity, Mr. Debanjan Jana, Md. Shabbir, for their cordial help, support and encouragement.

I am obliged for getting the chemicals, consumables as well as Instrumental supports by the grant aided by Science and Engineering Research Board, Department of Science and Technology (SR/FT/LS-102/2010) and University Grand Commission (F.PSW-88/12-13 (ERO), Government of India.

I am also grateful to Dr. Asim Kumar Bera, Principal, Mahishadal Raj College, Mahishadal, for his constant support, help and encouragement.

I want to thank Mr. Samidh Baran Jana and Mr. Mohibul Haque and my village friends for their enormous encouragement and love.

I feel profound privilege to express my deep reverence to my parents, my sister, brother and brother in law for bearing with me for unpredictable hours at home, upsetting normal life and for relieving me from several domestic duties throughout this study.

I would also like to acknowledge my gratefulness to all those who have directly or indirectly helped me in carrying out this study.
