ACKNOWLEDGEMENT

On this very special occasion when I have realized one of the most desirable dreams of my life, I would like to acknowledge all those people who have contributed to the exhilarating journey of my doctoral period. This is perhaps an impossible task, given the many people that have helped to implement, perpetuate, criticize and evangelize the work. I am going to try anyway, and if some name is not listed, rest assured that my gratitude is not less than those listed below.

First and foremost, I am falling short of words in expressing my immense gratitude and respect to my worthy supervisor Dr. Vipan Kumar, Assistant Professor, Department of Chemistry, Guru Nank Dev University, Amritsar, for introducing me to the enthralling field of “Synthetic-Organic Chemistry.” He has always been a great source of inspiration with his constant encouragement, motivation and excellent guidance throughout the course of this dissertation. His truly scientist intuition has made him as a constant oasis of ideas and passions in science, which exceptionally inspire and enrich my growth as a student, a researcher and a scientist want to be. I am indebted to him more than he knows. Being always embowered by his graceful and friendly behavior, I enjoyed every moment of my research period.

I offer my regards and sincere thanks to Professor B.S. Randhawa, Head, Department of Chemistry, Guru Nanak Dev University, Amritsar, for his inspiring and knowledgeable guidance and for providing me all the laboratory and library facilities to pursue my research work.

The precious suggestions and encouraging words from my past lab mates Dr. Gaurav bhargava, Dr. Amit Anand and Dr. Pardeep Singh for working in laboratory are sincerely acknowledged. I wish to thank to my present lab mates Mr. Raghu Raj (SRF), Mr. Kewal Kumar (SRF), Miss Nisha (SRF) and Mr. Sumit Sharma (JRF) for their problem-solving attitude and healthy discussions during the course of my research work.

My sincere thanks to M.Sc project students Jagdeep Singh, Shivani, Neetu, Jyotsna, Anu, Pooja and Sanu for their co-operation, care, help and constant motivation
given to me. I wish to convey my sincere thanks to all non-teaching staff of the Department for their valuable co-operation.

The financial support provided by Council of Scientific and Industrial Research, New Delhi as a Research Fellowship is gratefully acknowledged.

I acknowledge to my best friends Raghav Chawla, Raghu Raj, Sunil Arora, Kunwar Mehra and Abhishek Sharma, for their constant reassurance and assistance even in odd times and enabled me to achieve my goals complacently.

I soulfully express my unbound thanks to Miss Isha Lumb my colleague of the department who stood by my side whenever and wherever the need arose during my research work.

Writing doctoral thesis is not only a personal academic mission but also a family affair. My special thanks are reserved for my brothers, sister, bhabhi and jiju for their unswerving support and love in this exciting venture.

I owe my thanks to my parents for their support and patience during this odyssey and showing me the right path for achieving success. Without their moral support and inspiration, it would have not been possible for me to carry out my research work successfully. Their affection has always been the great inspiration for me to be patient and to concentrate on my work during my tough period.

Above all I express my heartfelt gratitude to ‘God’ who has always been the impelling force behind man’s efforts. Having unflinching faith, my sincere and earnest gratitude is extended to almighty, which helped me in the achievement of the given task.

(Vishu Mehra)
