List of Publications

1. Growth and characterisation of a novel polymer of manganese(II) nicotinate single crystal.

2. Crystal structure, thermal and dielectric studies of a new polymorph of thiamine iodide hydroiodide.
   **S. Prasanna**, K. Rajendra Babu, M. Deepa and C.M.K. Nair

Proceedings

1. Characterisation studies of gel grown folic acid crystals.

Seminar presentations

1. Spectral and thermal studies of gel grown cobalt nicotinate crystals.
   Organised by Indian Society of Analytical Scientists [Abstract No.KCP 50].

2. Characterization studies of gel grown crystals of calcium complex of folic acid.
   Organised by Indian Society of Analytical Scientists and Cochin University of Science & Technology [Abstract No. ICP 100].
3. Characterisation studies of gel grown folic acid crystals.

Prasanna S., Bijini B.R., Deepa M., Rajendra Babu K. and C.M.K. Nair

Communicated papers

1. Thermal and dielectric studies of Pyridine-3-carboxylic acid single crystal grown in gel.

Prasanna S., Bijini B.R., Deepa M., Rajendra Babu K. and C.M.K. Nair

*Indian Journal of Pure and Applied Physics*

2. Crystal structure and characterisation of single crystals of sodium salicylate complex of the antimalarial drug quinine.

Prasanna S., Deepa M., Rajendra Babu K. and C.M.K. Nair

*Journal of Crystal Growth*
